FOR IMMEDIATE RELEASE

## DxO OpticsPro v11.4.1 now supports three new cameras

PARIS & SAN FRANCISCO — April 20, 2017 — DxO, a pioneer in digital imaging technologies, announces that version 11.4.1 of its award-winning photo editing software, DxO OpticsPro, is now available. With this update, DxO OpticsPro supports the Canon EOS M5, the Lumix DMC LX10 / LX9 / LX15, and the Panasonic Lumix DMC G80 / G81 / G85.

### Over 34,000 Optics Modules available

With its in-depth knowledge of each camera and lens, DxO OpticsPro automatically corrects all optical defects with an unparalleled level of quality. This latest version of DxO OpticsPro 11 adds 633 new camera/lens combinations to the DxO Optics Module library, bringing the number of available combinations to 34,853!
