For more information: <https://support.dxo.com/hc/articles/115015671008>
- Adobe Photoshop CS5 (64 bits) through CC 2019
- Adobe Photoshop Elements 13 (64 bits) through 2019 (apart from HDR Efex Pro 2, which is not compatible with Photoshop Elements)
- Adobe Photoshop Lightroom 3 through Classic CC 2019

GPU Compatibility

- Starting from: NVIDIA GeForce 8 Series, ATI Radeon HD2000 Series, and Intel HD Graphics 2000 Series.
- If no compatible card is available, GPU acceleration will be disabled, and the CPU will be used.

Key features in Nik Collection 2018 by DxO

Nik Collection by DxO is a pack of 7 plugins fully functional on all 64-bits platforms including:

- **Analog Efex Pro** - Explore the look and feel of classic cameras, films, and lenses
- **Silver Efex Pro** - Master the art of black-and-white photography with darkroom-inspired controls
- **Color Efex Pro** - A comprehensive set of filters for color correction, retouching, and creative effects
- **Viveza** - Selectively adjust the color and tonality of your images without complicated masks or selections
- **HDR Efex Pro** - From natural to artistic, explore the full potential of HDR photography
- **Dfine** - Improve your images with noise reduction tailored to your camera
- **Sharpener Pro** - Bring out hidden details consistently with the professional's choice for image sharpening

###

What's new in Nik Collection by DxO - Build 1.2.18

- Compatible with macOS 10.14 (Mojave).
- Compatible with the 2019 version of Adobe Photoshop CC, Lightroom Classic CC, and Photoshop Elements.
- **Fixed:** compatibility issue between Affinity and Nik plug-ins on macOS. But please note that the wrong color display on Viveza still exists when launched from Affinity.
- **Fixed:** block artifacts on image borders when applying some filters in Color Efex or Silver Efex (macOS).
- **Fixed:** crashes when launching Nik plug-ins related to specific ICC color profiles for image or display.
- **Fixed:** wrong color display in Nik plug-ins related to specific ICC color profiles for display.
- **Fixed:** error message "Could not complete the command because of a problem with the filter module interface" when launching Nik Collection on some specific user accounts (macOS).
- **Fixed:** wrong Selective Tool display when clicking on its 'minimize'/'restore' button.
- **Fixed:** Nik Collection can be marked as in quarantine (and therefore software like Little Snitch blocks it) (macOS).
- **Fixed:** Nik plug-ins don't show up in Lightroom 'Edit In' menu. Please note that if you still encounter this issue we strongly advise, before installing Nik Collection 2018, to uncheck Lightroom preference "Store presets with this catalog" (in menu "Edit -> Preferences... -> Presets").

###

What's new in Nik Collection by DxO - Build 1.2.15

- **Fixed:** Activation issues when installing the plugins.
- **Fixed:** Issue when launching nik plugin with Adobe Photoshop, after User account migration (Mac).

###

What's new in Nik Collection by DxO - Build 1.2.14

- **Fully support Adobe Photoshop, Lightroom, and Photoshop Elements CC 2017/2018:** Nik Collection plugins can now be used without any issues with the very latest Adobe host applications.
- **Fully support latest mac OS X system:** Nik Collection plugins are now compatible with latest mac OS system updates.
- **DxO auto update engine** is now integrated to notify users as soon as updates are available.
- **Fixed: Calling Nik plugins from Adobe Photoshop Filter menus instead of selective tool** doesn't create crash anymore.
- **Fixed: Smart filters / Smart objects blend options from Adobe Photoshop layers** can now be edited with no more issues.
- **Fixed:** Looping Windows pop-up when editing selective brush from any Nik plugins
- **Fixed:** Error in Adobe Lightroom after saving an image from HDR Efex Pro plugin.

Known limitations

- HiDPI resolution screens are still partially supported.
