Installation and activation

- We recommend that you install the latest Microsoft updates for Windows before installing the application.
- The standalone application along with the Adobe Photoshop, Lightroom, Elements, and Apple Aperture plug-ins can all be installed by downloading and running the appropriate installer from the DxO website.
- One license allows you to install DxO ViewPoint on three different computers (Mac and / or PC).
- Activating one instance of DxO ViewPoint automatically activates all the other instances installed on the same machine (for example, activating the standalone application also activates the Adobe Photoshop and Lightroom plug-ins).

Compatible host applications

- DxO PhotoLab
- DxO OpticsPro 11
- Adobe® Photoshop® Elements® 9, 10, 11, 12, 13, 14, 15, 2018, 2019, 2020
- Adobe® Photoshop® Lightroom® 3, 4, 5, 6, Classic CC
